CORONAVIRUS UPDATE FROM 4.10.2021 RECOMMENDATIONS AND RESTRICTIONS

The coronavirus pandemic situation in Meri-Lappin area is in a low stage. But there is still virus in the area, individual infection especially among the unvaccinated appear almost daily.

- It is strongly recommended to wear face mask in all situations where there are not possibilities to keep safe distance.
- It is possible to visit the residents of the care service homes and nursing homes observing the safety distance and using protective equipment. Visitations could be staggered and must be agreed in advance with service homes management. There can be a maximum of two visitors at a time.
- Face mask, safety distancing and good hand hygiene should be observed during the visit.
- Travels to areas where pandemic situations are in bad stages is not recommended.
- The receiving coronavirus vaccine and gradual withdrawal of restrictive and protection measures is strongly recommended.
- The guidelines are effective until further notice.
